

Greetings Fellow Lake Mohawksin Stakeholders,

This is an update for 2020 happenings and situations.

Treatments: There will be no treatments for Eurasian Water Milfoil (EWM) and no hand pulling of Curley Leaf Pond Weed (CLP). We are not involved in any goose control activities. We will be continuing our Purple Loosestrife (PL) eradication. The eradication consists of raising beetles that depend on the PL leaf for survival and placing them in PL patches that are identified by survey.

Planning: Onterra will be finishing the updating of our Lake Management Plan. The deadline has been extended to December 31, 2020 by the WDNR. The results will be distributed via the FOLM website and all stake holders that provide their email. Timing is driven by WDNR approval. A current, approved plan is a requirement for any grant approval.

Annual Meeting: The Board has decided to not have our annual meeting on August 22 consistent with others that are reacting to the Covid virus. We will have a virtual meeting using the Zoom format. Directions and meeting codes will be provided by email later. The virtual meeting will be August 22 at 9:00AM CDT.

Administration: The mailing of invoices last year to FOLM members for collection of dues was a large success. We will continue and expand that approach this year. We will be sending this letter to owners of all 600 plus parcels to inform them and provide an opportunity to join FOLM. Included in this letter is a form/invoice that has multi-purposes. The data normally available from the Lincoln County system is difficult to work with these days. The mailing list we are using is the same as the one generated for the recent survey. Please fill out the data asked for. We know this is redundant for many of you. Please understand the parcels change ownership regularly and we have no easy way to identify the new owners or changes in parcels that are combined or split. This is also a call for 2020 dues. We have no easy way to print individual status. Rest assured any money received will be posted first to 2020. If you have paid 2020 or later, the money will be credited to the next yet unpaid year.

If you choose not to join, please provide the requested data so we can keep you informed via email to the extent possible. If you do not use email please indicate so if you wish to receive minutes by USPS.

Thank you,

Allen J. (AJ) Theiler
